MOLECULAR BIOLOGY AND BIOTECHNOLOGY OF EXTREMOPHILES

Book Condition: New. Publisher/Verlag: Springer Netherlands | It is now well recognised that many environments considered by man to be extreme are colonised by micro-organisms which are specifically adapted to these ecological niches. These organisms not only survive but actively grow under such conditions. A diverse range of bacteria, cyanobacteria, algae and yeasts has now been isolated from these habitats which are extreme in terms of temperature, pH, salinity and pressure as well as species which are resistant to radiation and...

Reviews

Completely among the best publication I have got at any time go through. I have got go through and so i am confident that i will likely to read again once more down the road. It is extremely difficult to leave it before concluding, once you begin to read the book.
