For over two hundred years, many intelligent men and women have tried to break its code, to no avail. Without the aid of ancient cryptology techniques and simple math it cannot be solved. Over the last six years my brother and I have worked diligently to put these old methods together to come up with a solution. Finally, we were able to name the author of the Shugborough Hall Inscription and what his coded message revealed. The solution will surprise you, as it did us.
