## ONE HUNDRED LESSONS IN ELEMENTARY AGRICULTURE: A MANUAL AND TEXT OF ELEMENTARY AGRICULTURE FOR RURAL SCHOOLS (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from One Hundred Lessons in Elementary Agriculture: A Manual and Text of Elementary Agriculture for Rural Schools The preparation of this book is an effort to combine in convenient form the directions for the laboratory experiments, field exercises, text-book studies, and notebook work, which the author has found most practical and helpful in teaching elementary agriculture and nature-study in rural and consolidated schools. It has been the aim of the author to simplify the subject-matter, materials and methods usually presented in text-books on agriculture, so that the teacher in the one-room county school, in the grammar grades of a graded school or in the beginning years of a high school may find the lessons easily practical, within the range of the pupils understanding, and full of profitable interest and educational value. It is a text-book and manual combined, for the purpose of leading away from the usual text-book method of teaching, to the method of first-hand contact with the real things of Agriculture. If the work is not conducted by means of real things, the educational value is lost, and the information given not permanently retained. The lessons do not follow each other in very close sequence, each lesson being independent, permitting the teacher to choose as the season and occasion make the materials available. It is not the purpose to make ready made lessons, which will discourage or take away the need of effort on the part of the teacher. but to furnish suggestive subject-matter and methods upon which he may build from his own initiative and resourcefulness.
