Orion Publishing Co. Paperback. Book Condition: new. BRAND NEW, Churchill and Empire, Lawrence James, A genuinely new biography of Churchill, focusing on his contradictory and lifelong relationship with the British Empire. One of our finest narrative historians, and journalist for the SUNDAY TIMES and LITERARY REVIEW, Lawrence James, has written a genuinely new biography of Winston Churchill, set within a fully detailed historical context, but solely focusing on his relationship with the British Empire. As a young army officer in the late 19th century, Churchill's first experience of the Empire was serving in conflicts in India, South Africa and the Sudan. His attitude towards the Empire at the time was the stereotypical Victorian paternalistic approach - a combination of feeling responsible and feeling superior. Conscious even then of his political career ahead, Churchill's natural benevolence towards the Empire was occasionally overruled for political reasons, and he found himself reluctantly supporting - or at least not publicly condemning - British atrocities. As a politician he consistently relied on the Empire for support during crises, but was angered by any demands for nationalisation. He held what many would regard today as racist views, in that he felt that some nationalities were superior to others, but he didn't regard those positions as fixed. His (some might say obsequious) relationship with America reflected that view. America was a former colony where the natives had become worthy to rule themselves, but - he felt - still had that tie to Britain. Thus he overlooked the frequently expressed American view that the Empire was a hangover from a bygone era of colonisation, and reflected poorly on Britain's ability to conduct herself as a political power in the current world order. This outmoded attitude was one of the reasons the British voters rejected him after a Second...
