If u = 1, since p and n are between the same limits, we have, by.extracting the square root, s x n 6) 5 f-(-l)n 0 (, n-)) Several of the expressions deduced in the latter part of this paper, are purposely left in their most general form; should any one enquire into the results produced, by assigning particular values to some of the quantities concerned, he will meet with many singular and curious theorems. The formulae in the former part, may by differentiating and by other methods be converted into infinite series, and from these and the expressions themselves, may be derived several remarkable properties of the circle. ON TRIGONOMETRICAL SERIES; Particularly those whose Terms are multiplied by the Tangents, Co-tangents, Secants, c. of Quantities in Arithmetic Progression; together...
