

Survival Levitation: The Little Manual That Tells You How

Filesize: 8.05 MB

Reviews

This written publication is fantastic. This can be for anyone who statte that there had not been a well worth reading through. I realized this pdf from my i and dad recommended this publication to discover.

(Maye Schoen)

SURVIVAL LEVITATION: THE LITTLE MANUAL THAT TELLS YOU HOW

Balboa Press, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.The little manual you now hold teaches levitation. Many people will have you believe levitation is impossible. It is not. Levitation is an extraordinary ability. By that I mean you do it every day and don't even realize it. I'm going to show you how to bring out that little bit of extra energy you need to leave the ground. With proper knowledge and some time spent doing the exercises in this manual, you can achieve levitation. It's not as hard as you may think. I wrote this manual to save lives. Our society lives and works in buildings that are too tall. Fire and rescue personnel just can't get to the upper floors if something disastrous happens in the middle or upper floors of these buildings. Many people choose to jump rather than die in fire. I don't blame them either; however, by writing this manual, I would like to give you a third choice. If you take the time to learn what I teach, you can control how fast you fall. That is why I chose to name this work Survival Levitation. Levitation is for survival and it can save your life. I hope and pray that you will never have to use the knowledge in this book to save your life. If you do, however, it will be nice to have it. Be safe, be prepared, and don't be afraid to let yourself achieve something impossible.
