Reviews

It is straightforward in go through easier to recognize. I actually have study and that i am sure that i will going to study yet again again down the road. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Transaction Publishers. Hardback. Book Condition: new. BRAND NEW, Theophrastian Studies: On Natural Science, Physics and Metaphysics, Ethics, Religion and Rhetoric, William W. Fortenbaugh, This third volume in the Rutgers University Studies in Classical Humanities is closely related to Volume 2, Theophrastus of Eresus, in that it too reflects a new and growing international interest in Aristotle's successor as Head of the Peripatos. Seventeen scholars from six countries are contributors. Special attention is given to Theophrastus' work on natural science, in particular the surviving treatises On Smells, On Stones and On Fire. His ground breaking studies in botany are also brought to the foreground as is his role as a prototype ecologist. Theophrastus' physics and metaphysics are considered from various angles: his analysis of place, the character of his short work on metaphysics and this work's relationship to the larger Aristotelian treatise. In keeping with Theophrastus' almost universal interests, there are also contributions dealing with ethics, religion, and rhetoric. Contents: Part 1: The Scientific Opuscula: "The Structure and Function of Theophrastus' Treatise De odoribus," Georg Wdhrle; "Identification of Titles of Botanical Works of Theophrastus," Michael G. Sollenberger; "Theophrastus and the Study of the Intractable: Scientific Method in De lapidibus and De igne," John Vallance; "Some Aspects of the Secondary Tradition of Theophrastus' Opuscula," Robert W. Sharpies. Part 2: Botany and Ecology: "Theophrastus as Ecologist," J. Donald Hughes; "Drugs and Psychic States in Theophrastus' Historia Plantarum 9.8-20," Anthony Preus; "Historiae I: Plantarum et Animalium," Allan Gotthelf. Part 3: Physics and Metaphysics: "Theophrastus on Place," Richard Sorabji; "The Relationship between Theophrastus' Metaphysics and Aristotle's Metaphysics Lambda," Daniel T. Devereux; "The Idea of the Cosmos as an Organic Whole in Theophrastus' Metaphysics," Marlein van Raalte; "The Aporematic Character of Theophrastus' Metaphysics," John Ellis; "Four Notes on Theophrastus' Metaphysics," Andre Laks, Glenn W. Most, Enno Rudolph....
