Brand New Book ***** Print on Demand *****.Many kids are bored at the traditional school learning model. These kids need the ability to express their creative right brain minds at all times. A simple activity of connecting the dots allows them the freedom to think outside the box and expands their artistic palettes. Who knows as a result of this activity, some kids might decide to become architects, designers, or engineers. Not all kids activities have to be intellectual in nature, there is emotional and creative intelligence expressed by kids everyday, you just have to be willing to look for it.
